The National Medical Association (NMA)'s **Annual Convention And Scientific Assembly** is acclaimed as the nation's foremost forum on medical science and African American health. Each year, African American physicians and other health professionals from

across the country convene to participate in the scholarly exchange of medical advances, discuss health policy priorities, and to share experiences through networking opportunities. Through NMA's 26 Scientific Specialty Sections, the Convention attracts the broadest

spectrum of African American physicians, academicians and scientists in the country. The program opens on Saturday, July 25, 2026 with special sessions, workshops and the official opening and continues through Wednesday, July 29, 2026.

About the NMA

Established in 1895, the National Medical Association (NMA) is the largest and oldest national organization in the United States representing the interests of African-American physicians and the patients they serve. The NMA serves as the leading voice force for parity and justice in medicine and the elimination of disparities in health.
